

GBAG SAMPLE POLICY

Limitations on sample availability

We realize that it can be helpful to you as a distributor to get sample bags to show to your clients. And we want to support you in this whenever possible. However, there are some limitations you should be aware of:

None of our bags are stock bags. All of the bags shown online were individual custom orders. Although we may retain several samples for our own records and display purposes, we do not keep an inventory of each custom item. We do have varieties of random sample that we can send out, but we may not be able to send you the specific bag you would like.

Also, we custom-make bags in any size and shape, and in a variety of styles – but we do not have samples of every possible size, shape and style available. We may not be able to send you a sample in the exact size, shape or style you want.

In many cases, we may be able to send you something similar, from the extra samples we have on hand, to the size and style you wish to show your client. And we will come as close as possible.

Requesting samples

- We will send up to three samples at no charge for the samples.

If you need more than three, there will be a charge of \$3.00 per sample for any over three.

- We must receive either a FedEx or UPS account number from you for over three samples or samples require expedited shipping.
